Laura Goodwin
@laura_e_goodwin

Yes, and chances are that in order to encourage people to re-register, the government may make MORE rights and basic services dependent on producing a document - leaving out those who can't get one.

That will harm the most vulnerable Kenyans.

Q4 Recap: How can we solve concerns around implementation of NIIMS?
✅Ensure extensive consultations with all actors
✅Ensure the system is set up with the most inclusive parameters
✅Reviewing legislation in compliance with the constitution#IdentificationofCitizensKE

> **KHRC** @thekhrc
> Q4. How can we solve the issues with the legal and administrative gaps in the implementation of the National Integrated Identity Management Systems? #IdentificationOfCitizensKE

Replying to @thekhrc

first of all we have to know what it is

KHRC
@thekhrc

The National Integrated Identity System refers to a central reference for registration information and data about citizens. It is a digital register of identification and registration of persons #IdentificationOfCitizensKE

Replying to @HesbonOchieng17

Yes, and chances are that in order to encourage people to re-register, the government may make MORE rights and basic services dependent on producing a document - leaving out those who can't get one.

That will harm the most vulnerable Kenyans. #IdentificationOfCitizensKE

Mustafa Mahmoud @merchoz4 · Jan 25, 2019

The NIIMS will also have NTSA data which will be available for insurance providers and banks. Imagine being denied insurance coz of your records which might not be even accurate? #identificationofcitizenske We need to have protections on which data is shared and which is private.

Medika Medi
@MedikaMedi

Good concern. This means Data Protection Bill 2018 needs to be passed. #IdentificationOfCitizensKE

Remember when IFMIS was going to end corruption in the Government?,
Biometric voter registration was meant to put an end to vote rigging....
Billions spent on benchmarking and theyre priority is to digitize databases and biometric registration?! 💩💩💩

What is being proposed is a massive undertaking which would cost billions upon billions to implement and sustain. Rather than look at the underlying issues that lead to radicalization and terrorists ability to carry out attacks in Kenya... sigh#IdentificationOfCitizensKE

Risk of being stateless specially the Kenyan communities who are in the refugee data base and cannot get any citizenship documents.

> **KHRC** @thekhrc
> Q3 Recap: What are the gaps in the implementation of NIIMS?
> ✅Risk of abuse of the digital legal database
> ✅Lack of data protection laws and policies in Kenya
> ✅Administrative inefficiencies hindering reach of birth registration to all Kenyans #IdentificationofCitizensKE

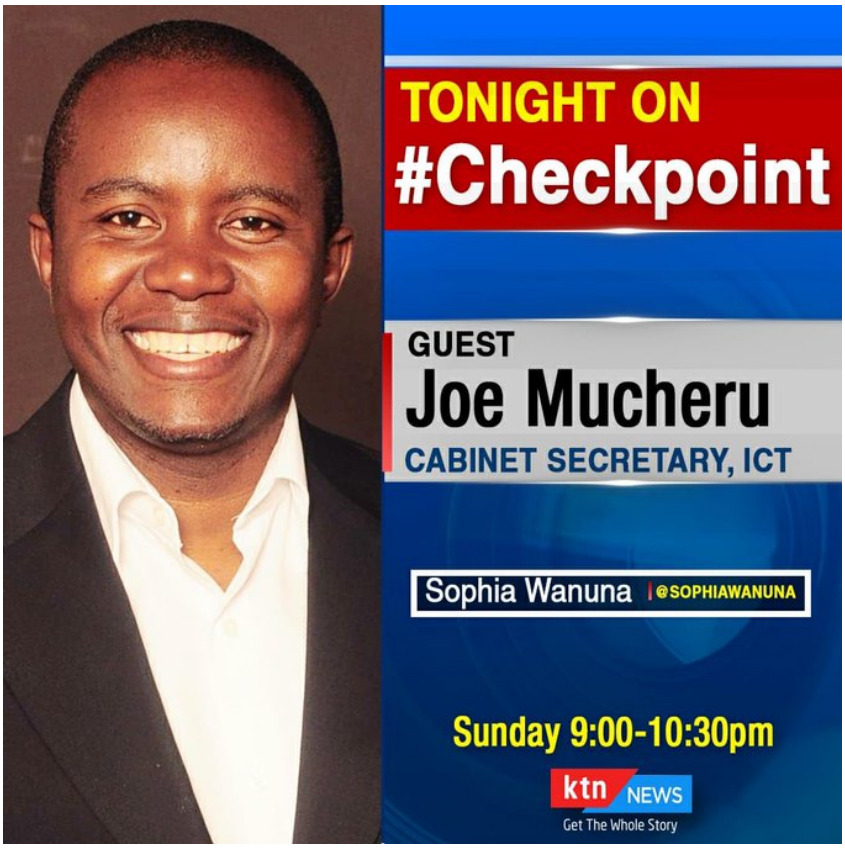
Do you support Govt. fresh registration of persons that includes taking your DNA? I host ICT CS @Mucheru on #Checkpoint tonight ...I'll also engage him on: When will the judiciary be digitized? Why has there just been 5% implementation of the digital literacy program? @KTNNewsKE



Laura Goodwin
@laura_e_goodwin

#Kenya needs comprehensive reform of existing ID registration laws & practices and meaningful data protection laws - *before* NIIMS and the Huduma Number are rolled out #IdentificationOfCitizensKE
